L'Art de Vivre

In the heart of the metropolis

ARCHITECTURAL FORM

The hyper form is characterized by subtle contours and fluid lines. From every angle, the facade offers a new perspective, creating a visual mystique — an exquisite sculptural work forming a spirited sense of flow and movement.

ENTHUSED BY THE FRENCH RIVIERA

Imagine waking up to the sound of waves crashing on the shoreline and stepping out on to your terrace to soak in the enthralling views of your own private beach. The hyper form is inspired by the flair of the French Riviera, depicting L' Art de Vivre.

BUGATTI DNA

Drawing inspiration from Bugatti's iconic super cars, the hyper form is designed to embody the essence of the brand's ingenious and visionary spirit, evoking the sense of exuberance and refinement found at Bugatti. The hyper form features high-end finishes, exquisite craftsmanship, and the latest state-of-the art smart home system derived from the Bugatti DNA — always challenging the impossible.

THE CONCEPT

A NEW ICON IN THE CITY

The birth of an icon - the hyper tower is poised to become a landmark of architectural prowess, derived from the Bugatti and Binghatti DNA. Inspired by the world's most eminent structural masterpieces, Bugatti Residences by Binghatti is not a mere addition to city's skyline but a new icon that will stand the test of time.

Disclaimer: 1. All stated dimensions and areas whether in relation to the building, common areas or individual units are subject to government and local authority approvals. Final dimensions and areas will be stated in your sales and purchase agreement. 2. All room dimensions are measured to structural elements and exclude wall finishes and construction tolerances. 3. All dimensions have been provided by our consultant architects. 4. All materials, dimensions and drawings are approximate. Information is subject to change without notice. 5. Actual suite area may vary from the stated area. Drawings are not to scale. The Developer reserves the right to make any alterations whatsoever including for aesthetic purposes.

6. Calculation of suite area is measured as the area bounded by the centre line of demising or partition walls separating one unit from another unit, the exterior face of all exterior walls, and the exterior face of the corridor wall enclosing the adjoining unit. 7. Calculation of balcony area is measured as the area bounded by the centre line of demising or partition walls separating one unit from another unit, the outmost face of the enclosing guard and the exterior face of this adjoining balcony. 8. The units are measured at typical floor in the building. Columns may vary in size depending on the floor level. 9. For each unit type, unit sizes and details might be different and your sales and purchase agreement will contain the actual size of each specific unit.

A wide-angle, aerial photograph of Monaco at sunset. The sky is filled with dramatic, colorful clouds ranging from deep blues to bright orange and yellow. The city of Monaco is visible along the coast, with numerous skyscrapers and buildings illuminated by their lights. The harbor is filled with many boats and yachts. In the foreground, the dark silhouette of a hillside covered in trees and bushes is visible.

A TRIBUTE TO THE

RIVIERA'S FLAIR

THE EPITOME OF

REFINEMENT

An aerial, high-angle shot of a futuristic coastal city at night. The city is built on a series of large, smooth, metallic, wave-like structures that curve along the coastline. These structures are illuminated from within, creating a bright, glowing effect against the dark sky. Interspersed between the metallic structures are clusters of palm trees and small, brightly lit buildings. The overall aesthetic is sleek, modern, and otherworldly.
